Fees
The current fee schedule is listed on the Enrolment form. Accounts are forwarded at the beginning of each term by the tutor and payment must be received by the due date for tuition to continue. Lessons cannot be continued if payment is outstanding.

Withdrawal
If a student wishes to withdraw from tuition, a letter or email from the parent to the tutor is required before the end of term in which tuition is being received. Unless notification is received prior to the end of term, the full fee for the following term will be charged.

As student enrolment is scheduled on a term basis, withdrawal from the program mid-term is NOT acceptable.

Access to instruments
Instrumental students MUST have daily access to an instrument and music stand. It does not need to be the most expensive instrument but it needs to be durable and of reasonable quality (capable of producing a musical sound and of being in tune).

Hiring of Instruments
Students hiring an instrument from the College, are expected to supply their own instrument after 12 months. This will enable the hire of instruments to new students entering the program. The purchase of an instrument is a significant financial investment which requires commitment from your student. This will also motivate the student to achieve their best.

Assessment
Each student’s tutor will provide a progress report at the end of each semester which will be forwarded to you along with the College Report.

Books/resources
Students are required to purchase the necessary tutor books which are available at the College uniform store or from local music stores.
Introduction

Citipointe Christian College Brisbane takes a keen interest in the development of students’ creativity. There may be many ways to develop a student’s creativity, but one major route is by encouraging students to learn to play music. To support this, Citipointe has developed an outstanding and diverse Academy of the Arts.

Our tutors, many of whom are performing artists themselves, provide instruction at all levels in orchestral/band instruments as well as keyboard, guitar, percussion, voice and speech and drama. To encourage as many students as possible to explore this direction, fees are competitive and lessons are preferably held within the hours of school.

Our philosophy

The Academy encourages students to express their creativity through music, speech and drama and to share their gifts with each other, the College, the church and the community at large. Our highly qualified tutors train students to become artists, whose talents can contribute to the enjoyment of music, and the praise, worship, adoration and reflection on God.

The Academy helps students develop the discipline required to perform in band, orchestra, choir and ensemble groups.

Citipointe places great emphasis on its overall Arts program as it provides the opportunity for students to develop their creativity, and to reflect the aspiration of the College in the pursuit of excellence.

Who can enrol?

Enrolment in Instrumental lessons is open to all students from Year 2. Enrolment in Vocal lessons is open to students from Year 4. Students from all year levels can enrol at the beginning of any term although enrolment is encouraged at the start of the school year. Year 1 students will be offered the specialised Introduction to Music Program.

Ensemble Program

It is a requirement of enrolment that students enrolled in the Academy of Arts program and learning a wind, string or percussion instrument join a College band/ensemble at their appropriate playing level. Students enrolled in vocal lessons are required to be involved in a College choir.

Tuition

In all tuition areas, lessons are conducted weekly during school time, on a four week rotation basis so students do not miss the same class each week.

If your student requires a group lesson but a partner of similar standard is not available, enrolment must be made in a private lesson or you can join a waiting list for an appropriate partner.

Preference will be given to Senior students for out-of-school lesson times.

Attendance

Students are expected to attend all lessons. If unable to attend due to sickness, the parents must contact the tutor by text message to the number supplied by the tutor before 8 am on the day of the lesson.

If unable to attend due to an excursion, exams or any other reason, a minimum of 48 hours notice must be given to the tutor. Lessons will be rescheduled if correct notification has been received. Tutors must be contacted directly and not through the College office.
